PART 1: Registered Owner						
Name(s):						
Contact Person:	Telephone #:		Email:			
Address::	City:		Province:	Postal Code:		
PART 2: Identification of Lands Being Added Provide	e a location	map. Attach an appendix i	f required.			
Local government (nearest municipality or regional district):						
Legal Description		Assessment Roll Number	Parcel Identifier PID	Area (hectares)		
Is there a residence / dwelling on the parcel(s) listed above?			Yes or No:	Hectares:		
Is there land included in the above parcels, that will be used for a purpose other than residential and other than the production and harvesting of timber?			Yes or No:	Hectares:		
PART 3: Identification of Lands Being Withdrawn (Indicate on a location map. Attach an appendix if description is lengthy.)						
Legal Description		Assessment Roll Number	Parcel Identifier PID	Area (hectares)		

Management Commitment Amendment

MF#

PART 5: Soil Quality Assessment If area has been added or withdrawn, enter the total area of the MF after the addition / withdrawal by site class. Site Class Good Medium Poor Inoperable* Nonproductive* TOTAL Area (hectares) Are	PART 4: Proposed Amendment							
If area has been added or withdrawn, enter the total area of the MF after the addition / withdrawal by site class. Site Class Good Medium Poor Inoperable* Nonproductive** TOTAL Area (hectares) Inoperable means land which is productive for commercial tree species but its physical nature prevents harvesting by current methods *** Nonproductive means land that is physically incapable of growing commercial tree species PART 6: Forest Cover Information (for areas added to existing Management Commitment) Attach a forest cover map. Must identify any Land to Reforest (LTR) areas greater than one (1) hectare. LTR total area (hectares) The forest cover map must include identification of the LTR areas. These are areas where timber has been harvested or destroyed, and not yet restocked as per the Private Managed Forest Land Council Regulation section 31. PART 7: Restrictions on Forest Activities (for areas added to existing Management Commitment) Identify any restrictions on use of the land for the production and harvesting of timber, including covenants and local bylaws. Note: If property is being added to the Management Commitment, provide map(s) of the new properties: general location, existing road locations, and forest cover. Date (dd/mm/yyyy) I certify that amendment to the content of the existing Management Commitment fulfills the standards expected of a registrant	Identify section(s) of the Management Commitment to be amended, and the purpose and nature of proposed amendment(s).							
If area has been added or withdrawn, enter the total area of the MF after the addition / withdrawal by site class. Site Class Good Medium Poor Inoperable* Nonproductive** TOTAL Area (hectares) Inoperable means land which is productive for commercial tree species but its physical nature prevents harvesting by current methods *** Nonproductive means land that is physically incapable of growing commercial tree species PART 6: Forest Cover Information (for areas added to existing Management Commitment) Attach a forest cover map. Must identify any Land to Reforest (LTR) areas greater than one (1) hectare. LTR total area (hectares) The forest cover map must include identification of the LTR areas. These are areas where timber has been harvested or destroyed, and not yet restocked as per the Private Managed Forest Land Council Regulation section 31. PART 7: Restrictions on Forest Activities (for areas added to existing Management Commitment) Identify any restrictions on use of the land for the production and harvesting of timber, including covenants and local bylaws. Note: If property is being added to the Management Commitment, provide map(s) of the new properties: general location, existing road locations, and forest cover. Date (dd/mm/yyyy) I certify that amendment to the content of the existing Management Commitment fulfills the standards expected of a registrant								
If area has been added or withdrawn, enter the total area of the MF after the addition / withdrawal by site class.
